**A REPLACEMENT NAME FOR ICHNEUMON COERULATOR
FABRICIUS, 1804
(HYMENOPTERA: ICHNEUMONIDAE)**

Fabricius (1796; *Ent. systematica*, index alphabeticus, p. 83, 84) proposed the name *Ichneumon coerulator* as a replacement name for *Ichneumon lapidator* Fabricius (1787; *Mantissa insectorum*, v. 1, p. 266) (= *Trogus lapidator*) instead of the junior homonym, *I. lapidator* Fabricius (1793; *Ent. systematica*, v. 2, p. 160) (= *Neotypus coreensis* Uchida, n. status, n. syn.). Fabricius (1804; *Systema piezatorum*) gave a treatment of his 1787 *lapidator* on page 67; on page 68, without referring to his earlier use of the name *coerulator*, he described as *I. coerulator* a specimen or specimens of the Holarctic, northern subspecies of *Trogus lapidator* (identity of a type specimen confirmed by Townes, Momoi, and Townes, 1965; *Mem. Amer. Entomol. Inst.* 5:517) which he had received from Panzer. The name of the latter is here replaced by *Trogus lapidator panzeri* Carlson, n. name.
